

Amendments to the Specification

A substitute specification with markings is included as an appendix to this response. A clean copy of the substitute specification is also included. Applicants respectfully submit that this substitute specification corrects various typographical errors and informalities in formatting, some of which were noted by the Examiner. Applicants further respectfully submit that no new matter has entered in the substitute specification.

Amendments to the Figures

Submitted for approval are marked-up copies of FIGURES 1A, 1B, 2A and 2B, indicating prior art and correcting typographical errors.
